Thanks, Jeannie. I'm happy to stay out of this if you guys can work it out yourselves. I would get involved if you can't get agreement and you need to elevate.

generally speaking the first two weeks of January are pretty good, especially the week of January 9, but the week of January 16 is pretty full and then the week of January 23 is pretty good except January 26. Happy Holidays!

Hi Mel and Jeannie, Mark Habel had passed along EPA's response to NYDOS' CZMA objection and asked that I provide input to you. He provided some thoughts in the email below that he may have already passed along to you.

Steve: I just had a call from Mel about EPA's response letter to DOS. EPA is drafting a much more detailed response backup file for their record
